SUMMARY

Software engineer with nearly 3 years building distributed backend systems and AI agents in production. One of the lead developers of **MarIA**, an LLM-powered sales agent handling **1,000+ conversations/day** with a **10% paid-order conversion rate**. Stack: TypeScript, Node.js/NestJS, LangGraph, RabbitMQ, Redis and PostgreSQL.

PROFESSIONAL EXPERIENCE

Funcional Health Tech · Mid-level Full Stack Developer — Oct 2026 – Present

- Build end-to-end features for a healthcare web application with NestJS/TypeScript and React.

Pedbot · Intern ⟶ Junior ⟶ Mid-level — Feb 2024 – Sep 2026

Largest conversational commerce platform in Brazilian pharmacy retail (30M conversations, 3,000 pharmacies), selected by Meta for the WhatsApp AI Startups Hub. Promoted twice in 22 months.

Mid-level Full Stack Developer — Dec 2025 – Sep 2026

- One of the lead developers of **MarIA**, an AI sales agent deployed at Brazil's largest pharmacy chains: **1,000+ conversations/day**, **10% paid-order conversion** and a **75% gain in customer service efficiency**; case presented at Abrafarma Future Trends 2025, the national pharmacy chain association's annual conference.
- Designed conversational flows with **LangGraph** and **GPT** models, with **tool calling** integrated into clients' ERPs and **guardrails** aligned with business rules; contributed to **RAG** and observability.
- Refined prompts based on real production conversations, contributed to architecture decisions, ran code reviews and optimized critical APIs through query profiling.

Junior Full Stack Developer — Aug 2024 – Dec 2025

- Built MarIA's infrastructure with **NestJS microservices**, **RabbitMQ** messaging and **Redis**-based concurrency controls for high-volume distributed processing.
- Developed RESTful APIs (NestJS and Laravel) and integrations with client systems.

Software Development Intern · Express.js, React.js and external API integrations — Feb 2024 – Aug 2024

Brunnschweiler Latina · Monitoring Apprentice — Feb 2022 – Dec 2023

- Supported project management and tracked operational KPIs.

TECHNICAL SKILLS

AI & LLM: LangGraph, LangChain, OpenAI API, AI Agents, Tool Calling, RAG, Guardrails, Prompt Engineering
Backend: TypeScript, Node.js, NestJS, Express, Python, PHP/Laravel, REST, Microservices
Data & Messaging: PostgreSQL, MySQL, Redis, RabbitMQ
Frontend & Infra: React, Next.js, Docker, GCP, CI/CD, Git

EDUCATION

Associate Degree in Systems Analysis and Development · Unimar – University of Marília — 2025
Main Certification: LangChain Academy – Building Ambient Agents with LangGraph (2025)
Languages: Portuguese (native) · English (intermediate)
